For the wording of the listed hazard phrases refer to section 16. **Hydrocarbon mixture:** Benzene content < 0.1% Cyclohexane is a part of the hydrocarbon mixture. n-Hexane is a part of the hydrocarbon mixture.

### SECTION 4: First aid measures

4.1 Description of first aid measures General information: Take affected persons out of danger area and lay down. Remove soiled clothing After inhalation: Supply fresh air. In the event of irritation of the respiratory tract, dizziness, nausea or unconsciousness, call medical assistance immediately After skin contact: Wash the areas of skin affected with water and a mild detergent. If symptoms persist consult doctor. After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Do not induce vomiting; call for medical help immediately. 4.2 Most important symptoms and effects, both acute and delayed Headache Dizziness Nausea Drowsiness Skin irritation

**4.3 Indication of any immediate medical attention and special treatment needed** Treatment in accordance with the doctor's assessment of the patient's condition. Symptomatic treatment.

#### **SECTION 5: Firefighting measures**

5.1 Extinguishing media Suitable extinguishing agents: Foam Fire-extinguishing powder Carbon dioxide Water haze For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture In case of fire, the following can be released: Carbon monoxide (CO) Carbon dioxide (CO2) Nitrogen oxides (NOx) Silicon oxides

#### Trade name: SONAX Cockpit spray Apple-fresh

5.3 Advice for firefighters

Protective equipment: Do not inhale explosion gases or combustion gases. Wear fully protective suit. Do not enter the hazardous area without a self-contained breathing apparatus. See Section 8 for information on personal protection equipment. Additional information Cool endangered receptacles with water spray. Collect contaminated fire fighting water separately. It must not enter the sewage system.

## SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation For non-emergency personnel Keep away from ignition sources. Particular danger of slipping on leaked/spilled product. For emergency responders Wear protective equipment. Keep unprotected persons away. 6.2 Environmental precautions: Do not allow to penetrate the ground/soil. Do not allow to enter sewers/ surface or ground water. Inform respective authorities in case of seepage into water course or sewage system. 6.3 Methods and material for containment and cleaning up: Ensure adequate ventilation. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13. 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## SECTION 7: Handling and storage

7.1 Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace. Buildup of explosive mixtures possible without sufficient ventilation. Information about fire - and explosion protection:

Keep ignition sources away - Do not smoke.

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not spray onto a naked flame or any incandescent material.

Highly volatile, flammable constituents are released during processing. Protect against electrostatic charges.

7.2 Conditions for safe storage, including any incompatibilities Storage: Requirements to be met by storerooms and receptacles: Provide solvent resistant, sealed floor.

Observe official regulations on storing packagings with pressurised containers.

#### Information about storage in one common storage facility:

Store away from foodstuffs.

Observe local/state/federal regulations.

Further information about storage conditions:

Protect from heat and direct sunlight.

Store receptacle in a well ventilated area.

Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting. Recommended storage temperature: 20 °C.

## Trade name: SONAX Cockpit spray Apple-fresh

	110-25-8 (Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine
PNEC	0.0043 mg/l (sporadic release)
	0.00043 mg/l (water (fresh water))
	0.000043 mg/l (water (sea water))
Additi	onal information: The lists valid during the making were used as basis.
	posure controls
	le technical control devices
	e good ventilation. This can be achieved by localised extraction or general ventilation. If this is not
be wor	ent to keep the concentration below the occupational exposure limit, suitable breathing protection is to
	n. Jual protection measures, such as personal protective equipment
	al protective and hygienic measures:
	sual precautionary measures are to be adhered to when handling chemicals.
	away from foodstuffs, beverages and feed.
Wash	hands before breaks and at the end of work.
	ratory protection:
	ccupational exposure limit is exceeded:
	llowing breathing protection is recommended: atory filter for organic gases and vapours (Type A)
	cation colour: Brown
	N 14387]
	protection Protective gloves
	al of gloves
Nitrile	rubber, NBR
	imended thickness of the material: $\geq$ 0.4 mm
[EN 37	
Donoti	ration time of glove material Value for the permeation: Level 6 (≥480min)

#### SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical p General Information	roperties
Physical state	Fluid
Colour:	Light yellow
Odour:	Fruit-like
Melting point/freezing point:	Undetermined.
Boiling point or initial boiling point and boiling	
range	>34 °C
5 <b>5 1</b>	(Active ingredient data )
Flammability	Extremely flammable aerosol.
Lower and upper explosion limit	
Lower:	1 Vol % (Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, <5% n-hexane)
Upper:	8.5 Vol % (CAS: 106-97-8 butane)
Flash point:	Not applicable, as aerosol.
Decomposition temperature:	Not determined.
pH	Not applicable.
Viscosity:	
Kinematic viscosity at 40 °C	<20.5 mm²/s
	(Active ingredient data )
Solubility	
water:	Not miscible or difficult to mix.
Partition coefficient n-octanol/water (log value)	Not determined.
Vapour pressure:	Not determined.
	(Contd. on page 7)

GB

Printing date 18.09.2024

Version: 5.00 (replaces version 4.00)

Revision: 25.07.2022

Trade name: SONAX Cockpit spray Apple-fresh

	(Contd. of page 6)
Density and/or relative density	
Density at 20 °C:	0.73-0.74 g/cm³
-	(Active ingredient data )
Vapour density	Not determined.
9.2 Other information	
Appearance:	
Form:	Aerosol
Important information on protection of health and	
environment, and on safety.	
Ignition temperature:	Not determined.
Explosive properties:	In use, may form flammable/explosive vapour-air mixture.
Change in condition	
Evaporation rate	Not applicable.
Information with regard to physical hazard classes	•
Explosives	Void
Flammable gases	Void
Aerosols	Void
Extremely flammable aerosol.	
Pressurised container: May burst if heated.	
Oxidising gases	Void
Gases under pressure	Void
Flammable liquids	Void
Flammable solids	Void
Self-reactive substances and mixtures	Void
Pyrophoric liquids	Void
Pyrophoric solids	Void
Self-heating substances and mixtures	Void
Substances and mixtures, which emit flammable	
gases in contact with water	Void
Oxidising liquids	Void
Oxidising solids	Void
Organic peroxides	Void
Corrosive to metals	Void
Desensitised explosives	Void

#### SECTION 10: Stability and reactivity

10.1 Reactivity No dangerous reactions known.

**10.2 Chemical stability** Stable under normal conditions.

10.3 Possibility of hazardous reactions Develops readily flammable gases/fumes.

10.4 Conditions to avoid

An increase in pressure may lead to bursting.

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.

Keep ignition sources away - Do not smoke.

See Section 7 for information on safe handling.

10.5 Incompatible materials: strong oxidizing agents

10.6 Hazardous decomposition products: No dangerous decomposition products known.

#### **SECTION 11: Toxicological information**

**11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Acute toxicity** Based on available data, the classification criteria are not met.

Acute toxicity based on available data, the classification citteria

LD/LC50 values relevant for classification:
